

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

The following message from the Governor was received and read:

Executive Office,
Lansing, May 11, 1905.

To the Speaker of the House of Representatives:

Sir—I herewith return without my approval

House bill No. 661 (enrolled No. 225), entitled

A bill to regulate the use of boric acid and borax when employed as preservatives in food.

I believe that the best interests of our State can be best served when the different departments of the State are working in harmony with similar departments of the national government. This is especially true when the end sought is the protection of the health of our people by legislation requiring a higher standard in the preparation and preservation of food products.

In this connection I quote an extract from a letter received from Prof. H. W. Wiley:

United States Department of Agriculture,
Bureau of Chemistry, Washington, D. C.
May 6, 1905.

Office of the Chief.

Hon. Fred M. Warner,
Executive Office, Lansing, Michigan.

Dear Governor Warner:

* * * * *

"I should consider section 1 as a legalization on the part of the State of Michigan of the addition of an injurious substance to food products, a legalization which is not justified by any ethical principle, nor required by any commercial consideration. I should consider a statute of this kind as a backward step in a campaign which is being waged throughout the country for pure food products.

"I should further call your attention to the fact that if there is any justification for the permission given in section 1, there is no good reason why borax or boric acid should be prohibited in milk. If boric acid is injurious in milk, it is injurious in meat and oysters.

"I think you would do the people, not only of the State of Michigan, but also of the entire country, a service, if you would withhold your executive approval from this bill.

"Respectfully,
H. W. WILEY, Chief."

The course suggested by Prof. Wiley is followed because I believe that his experience and training, as well as the position he occupies, eminently qualifies him to speak with authority upon the subject matter of this bill. I deem it my duty to return the bill without my approval, expressing the belief that it should not become a law.

Very respectfully,

FRED M. WARNER,
Governor.

The question being on the passage of the bill, notwithstanding the objections of the Governor,

Mr. Brockway moved that the bill be laid on the table.

The motion prevailed.

Executive Office,
Lansing, May 18, 1905.

To the Speaker of the House of Representatives:

Sir—I desire to call the attention of the Legislature to some correspondence I have had relating to the removal of the remains of Governor Stevens T. Mason. It is the wish of the sister and daughter of Governor Mason that the City of Detroit be made the final resting place of their distinguished relative, and I submit herewith a copy of a letter I addressed to Hon. George P. Codd, Mayor of Detroit, also a copy of his reply, together with a copy of the Mayor's message to the Common Council and the resolution adopted.

"Hon. George P. Codd, Mayor of Detroit, Detroit, Michigan:

"Dear Mr. Codd—I enclose copies of letters relating to the removal of the remains of Governor Stevens T. Mason to the City of Detroit. I have thought of bringing the matter to the attention of the Legislature, but deemed it best to communicate with you before doing so. Should the City of Detroit make arrangements for the burial place, I shall send a message to the Legislature recommending the removal of the remains of Governor Mason by the State of Michigan to the City of Detroit.

"Such action would, in my opinion, be a just recognition of one whose services and record are historical in the early annals of our State.

"Very respectfully,

"FRED M. WARNER,
"Governor.

"May 4, 1905."

"Hon. Fred M. Warner, Governor, Lansing, Michigan:

"Dear Governor—I enclose you herewith a copy of my message to the Common Council, and their action thereon, relative to the removal of the remains of Governor Stevens T. Mason to our city, and have conferred with the Commissioner of Parks and Boulevards, who will set aside a suitable place in Capitol Park, the site of the old capitol, for this purpose.

"Will be pleased to co-operate with you in any way. I take it, you will bring this matter to the attention of the Legislature and advise me whatever action you desire taken from this end.

"Respectfully yours,

"GEORGE P. CODD.

"May 11, 1905.

To the Honorable the Common Council

"Gentlemen—Governor Warner, in conjunction with the Legislature, is making preparations to have the body of the late Governor Stevens

Thomson Mason removed to Michigan soil. Governor Mason was Michigan's first Governor and occupies a unique position in the history of the State. His remains now rest in a vault in New York City, the contemplated destruction of which makes it necessary that the body be removed from there within a short time.

'During Governor Mason's regime Detroit was the capital of the State and the old capitol building stood on the present site of what is now Capitol Park. Governor Warner and myself are agreed that it would be most fitting that his remains should finally rest in that spot, where an appropriate monument may be erected by the Legislature.

'I would urge that the necessary authority be granted by the Common Council immediately in order to enable the Governor to carry out the contemplated plans. I would also suggest that when the remains are brought to Detroit arrangements be made for suitable ceremonies.

'Respectfully submitted,

'GEORGE P. Codd,

'Mayor.'

'By Ald. Heineman:

'Resolved, That a committee of five members of the Council be appointed to act with his Honor the Mayor in the matter of the removal to Detroit of the remains of Stevens T. Mason, the first Governor of the State of Michigan.

'Resolved further, That the Mayor be and is hereby requested to inform the Governor of the State that the Common Council is agreeable to the offer of a suitable place in Capitol Park, or such other location as may be deemed proper for the above stated purpose.

'Resolved further, That the Commissioner of Parks and Boulevards be and is hereby instructed to set aside a suitable place in said park for the above named purpose.

'(Adopted.)' "

I would recommend that the Board of State Auditors be authorized to complete arrangements for the removal of the remains from the present burial place in New York City and for the interment of the remains in Detroit, and if this action is taken it will be necessary to provide for the expense incurred.

Very respectfully,

FRED M. WARNER,

Governor.

Whereas, Governor Mason's patriotic services to the State, his tireless energy in behalf of her interests, and notably his great services in the establishment of and defending the interests of the now great University of Michigan in its infancy, and in projecting the development of her mineral wealth, and the maintenance of her integrity are inseparably connected with the history of the State of Michigan, and are a part of the foundation of her prosperity; and

Whereas, The Common Council of the City of Detroit has tendered for the reception of the remains of Governor Mason a lot in Capitol Park, the site of the old capitol building; therefore

Resolved by the Senate (the House of Representatives concurring), That the Legislature of the State of Michigan deems it eminently fitting that the mortal remains of Governor Mason should rest in the soil of the State he loved and served so well; and

Resolved, That the remains of Governor Mason be brought to Michigan at the time of the annual session of the Michigan Pioneer and Historical Society, June 7 and 8, 1905, and that the Governor is hereby authorized to appoint three Commissioners to arrange for the transfer and burial of the remains; and be it further

COMMUNICATIONS FROM STATE OFFICERS.

The following communication from the Commissioner of Insurance was received and read:

Insurance Department,
Lansing, May 24, 1905.

To the Speaker of the House of Representatives:

Sir—In an opinion in the case of King vs. Concordia Fire Insurance Company, handed down on Monday of this week, the Supreme Court of this State declared unconstitutional Act 149 of the Public Acts of 1881, whereby the insurance policy commission created by said act was authorized to draft a standard fire insurance policy for use in this State.

The standard fire policy drafted and adopted by the said commission, as provided by said act, has been the only form of policy used in Michigan by companies operating herein, except farmers' mutual fire insurance companies, during the past twenty years. It is similar to the standard policy adopted and used in many of the other states of the Union, and is in line with the increasing tendency to secure uniformity in these contracts throughout the country.

Although the Supreme Court has not until now found it necessary to pass upon the constitutionality of the legislation authorizing the adop-

tion by a commission of a standard form of policy, numerous cases involving questions growing out of the use of that policy have been passed upon by that tribunal and the law relating to the policy is, therefore, well settled, thus minimizing the need for further litigation in connection with the interpretation and construction of the conditions and provisions of the policy.

The Supreme Court declared the act of 1881 unconstitutional for the reason that said act sought to delegate to a commission the power to enact a policy contract by which both the companies and the people should be bound. To be binding and constitutional a standard form of policy should be enacted by the Legislature in connection with provisions for its enforcement.

In order to meet the serious emergency due to the court decision above mentioned, the Attorney General has prepared, at the request of the Commissioner of Insurance, a bill which embodies the precise form of fire insurance policy that has been used in Michigan since 1887.

In my judgment the exigencies of the situation render it extremely advisable that this bill be enacted into a law to take immediate effect so that the rights of the property owners of Michigan may be preserved under the form of policy contract which was prepared by representatives of the State for the express purpose of safeguarding the interests of the assured.

Very respectfully,

JAMES V. BARRY,
Commissioner of Insurance.

Mr. Lord moved that the communication be referred to the Committee on Insurance.

Whereas, The United States of America will celebrate the three hundredth anniversary of the settlement of Jamestown, Virginia, May 13, 1607—the first English settlement on the Continent of North America—by an historical, educational and international naval, military and marine exhibition; and

Whereas, The President of the United States of America has issued his proclamation declaring and proclaiming that there shall be inaugurated in the year 1907, at or near the waters of Hampton Roads, in the State of Virginia, an international naval, marine and military celebration, beginning May 13 and ending not later than November 1, 1907, for the purpose of commemorating in a fitting and appropriate manner the birth of the American nation—the first permanent settlement of English-speaking people on the American Continent; and

Whereas, The President of the United States of America by said proclamation has invited all the nations of the earth to take part in the commemoration of the event which has had a far-reaching effect on the course of human history, by sending their naval vessels to the said celebration, and by making such representations of their military organizations as may be proper; and

Whereas, The several states of the American Union are recognizing the importance of this celebration as a great historical and educational benefit to the American people and are signifying their interest in the same by making proper and suitable appropriations for their respective buildings to be erected upon exposition grounds for a display of their several industrial, commercial, educational and historical institutions and products of their respective states, and a suitable and convenient rendezvous for their home people; and

Whereas, Some eleven states, so far visited by the Special Commissioner of the Jamestown Exposition Company, have made appropriations for buildings to be erected on exposition grounds, indicating great state and national interest in the success of this international project; and

Whereas, We believe that the Commonwealth of Michigan, one of the largest and most prosperous states in the American Union, noted for its industrial and commercial progress; its mineral wealth; its educational system; its splendid history, and the magnificence of its future, is exerting a great and wholesome influence in all that tends for the uplifting of mankind and the progress of the Nation; therefore be it

Resolved by the House of Representatives (the Senate concurring), That the State of Michigan should take part and be represented in some appropriate manner in this great and patriotic celebration;

Resolved further, That a Commission composed of two members on the part of the Senate and three members on the part of the House of Representatives be appointed by the Governor to investigate and inquire into the plans of the Jamestown Exposition Company, the character and scope of the said proposed celebration and report to the Governor not later than December 1, 1906, the result of their investigations, with such recommendations as they may see fit to make in the premises.

The following message from the Governor was received and read:

Executive Office,
Lansing, Michigan, June 16, 1905.

To the Speaker of the House of Representatives:

Sir—

House bill No. 46 (file No. 126, enrolled No. 412), entitled

A bill regulating the taxation of steam vessels, sailing vessels, boats and other water craft;

Is herewith returned without my approval. For the last four years it has been the policy of our State to tax property upon an ad valorem basis, and the enactment into law of this bill would be a distinct step towards returning to the specific tax for corporations. In principle this measure is against what can now be called the well-settled policy of the State, and its passage and enforcement would undoubtedly pave the way for demands for other legislation that would result in radical changes in our methods of levying and collecting taxes.

As evidence of the fact that the ad valorem system is growing in favor, I cite the fact that the present session of the Legislature passed a bill taxing sleeping car companies in this way. The best estimates that can be made from figures available at this time show that this bill would cause a net decrease in taxes paid on this class of property of about \$50,000. Its enforcement would therefore make necessary an increase of that amount in the taxes assessed against other property now paying as much in proportion to its value as does the property affected by this bill.

I do not know of a single valid reason why the bill should become a law. As already stated, it would reduce the taxes paid on vessel property, but no showing has been made that this class of property pays more tax in proportion to its value or earning capacity than other property. It is easier to remove it to other states and this has been done in some instances. There are those who will continue that course unless states surrounding us change their method of taxing vessel property. This has already been done in Wisconsin, where a bill has

been passed at the present session of the Legislature, repealing the law providing for the tonnage tax and taxing vessel property as personal property is taxed.

The fact that the tax is evaded in some instances should not be considered an argument for the bill, and believing that its enactment into law would not be for the best interests of the State, my approval is withheld.

Very respectfully,

FRED M. WARNER,
Governor.

The Speaker announced that the House would stand in informal recess until 11:50 o'clock a. m., the time being 11:05 o'clock a. m.
